FOR SALE

by AUCTION on the 17th May 2026

1 St Mary Close

Offers can be dropped off at the

Corner Shop,
Hampton Gym

To make your offer please pop
your name, contact number and offer price
into an envelope / folded paper and drop off to the
corner shop or the gym

All proceeds to the Cameron Grant Memorial Trust

Bartholomew's house is up for sale to raise funds for the Cameron Grant Charity.

It is a three bedroom rustic property that will be sold as seen and includes a weights room designed by Hampton Gym, a garden play house and the family pet cat and dog who refuse to move.

Bartholomew hopes that the new owner will discover a number of surprises that such a delightful family home has to offer.

As Bartholomew is not camera shy he appears in the photos (but also shows how interactive the home is).

Disclaimer :

It is a flat fabric house easily stored in its box.
Contains small parts.

History of Bartholomew Bear

In May 2025 **The Cameron Grant Memorial Trust** and **The Hampton Health & Fitness Club** organised a Charity Bike Ride from Hampton-in-Arden (where Cameron was born) to Amsterdam (where Cameron's brother Alastair lives).

The riders first gathered with gym members and the Mayor of Solihull at The Hampton to celebrate the 20th anniversary of Paul Ebrey and Gareth Thomas opening the gym. The Mayor wished all well and waved off the riders as they began the cycle to Amsterdam. The "peloton" of 32 included Evan - Camerons Father, Alastair – Camerons brother, Paul and Gareth (16 from Hampton). It was great to hear the cheering along the way by many at the gym and by others at the roadside as they left the village along Old Station Road and Meriden Road.

The route went via hotel stops in Corby and Cambridge to Harwich, the overnight ferry to the Hook of Holland, finished by riding north on cycle paths through the dunes along the coast and on into Amsterdam. The riders gathered to celebrate in the Vondelpark before finishing with an excellent dinner in the Grand Amrath Hotel. Altogether as a group they rode 250 miles over 4 days. (3 then rode on for a further 4 days to Dunkirk, but that's another story!)

The weather was great and the ride was wonderful. The best thing was the way the diverse group of 32 came together to create a wonderful spirit that helped everybody make it to the end in Amsterdam.

They had great support along the way from Carol - Camerons Mom and her sister Frances who followed by car meeting at break stops and at the end in Amsterdam. Frances took many great photos and videos.

Back in Hampton the village sat in the sun and listened to the village band play live in the White Lion Garden. The Bartholomew Bears were created to be presented to the riders as a thank you which the Mayor presented to each rider and support member at the Hampton Festival whilst also receiving her own bear, which can be seen proudly placed on the mantel piece in her Chambers Office.

The ride was organised to raise money to support suicide prevention and mental health awareness. The money raised used to produce more of Cameron's Coasters and Wellbeing Postcards for schools, colleges, universities and any other community that can use them. Cameron Grant Memorial Trust also makes small grants to support innovation in mental health care and, where possible, to increase counselling capacity. Funds raised support this work too. All riders paid to take part so that all funds raised went directly to the work of the Trust.

For more information about Cameron's Coasters & Wellbeing Postcards, CAM Support Messenger and the other work of the charity, please see the website:
